## **DETAILED ACTION**

### **FIRST ACTION ON THE MERITS**

Claims 1-15 is currently pending in the instant application.

#### **I. *Priority***

The instant application claims benefit of EPO Application 02027483.3, filed on December 10, 2002.

#### **II. *Information Disclosure Statement***

The information disclosure statement (IDS) submitted on June 10, 2005 is impartial compliance with the provisions of 37 CFR 1.97 because of missing copies of references listed under the Foreign Patent Documents section. Accordingly, the information disclosure statement in-part has been considered by the examiner.

#### **III. *Rejection(s)***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 13-15 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The phrase "Use of compounds" is written in improper format because a "use" can only be properly claimed as a process or method.

#### **IV. Objections**

##### Claim Objections

Claims 9-11 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 8. When two or more claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claims 1-15 are objected to because of the following informalities: the word "enantiomeres" is misspelled in claims 1, 6, 14, and 15. The correct spelling is "enantiomers" as found elsewhere in the disclosure. The word "recemates" is misspelled in claims 14 and 15 and the correct spelling is "racemates". A hydrogen is missing on the N atom on the indole ring in the structures displayed in claims 1 and 6. In the phrase "solvates 5HT1A antagonists" in claim 10, the word "as" is missing and the corrected phrase is "solvates as 5HT1A antagonists. Appropriate correction is required.
